

SCRUM Meeting 3 for Food Finderz

Prepared by: Brenda

Meeting Date: 11/07/2021

Meeting Attendees

1. Brenda Hill
2. Allyson Hoskinson
3. Priscila Santos Romo
4. Sidharth Edupuganti
5. Sameer Hussain

Meeting Agenda Items

- Discuss learning Node.js to interact with database
- Plan final steps for Sprint 1

Status Update Since Last Meeting

Accomplishments:

- Understanding Node.js
- Planning / organizing final portions of the sprint

Tasks Completed:

Task Description	Assigned to	Completed? (yes/no)
Convert static website to Node.js application	Sid	yes
Create table within PSQL database	Sid	yes
Connect Node.js backend to Heroku PSQL	Sid	yes
Collect form data with Node.js (backend)	Sid	yes
Error handling with sign up/log in	All	yes
API usage with Node.js	All	yes

Before The Next Meeting

Plans:

- Connect to Heroku database using Node.js
- Integrate static log in / sign up interface to Node.js

Task Assignments:

Task Description	Assigned to
Begin planning ahead for Sprint 2	All
Begin research for API integration	All

Minutes from Previous Meeting

SCRUM meeting 3 consisted of converting the website into Node.js and understanding how it works. Sid was able to create a table in the PSQL database and connect it to Node.js to be able to collect the data from the users. Finally, we set up error handling for the backend and discussed how to use APIs with Node.js.
